

About CBI-electric: low voltage

CBI-electric: low voltage is a South African company with more than half a century of experience in the design and manufacture of a comprehensive range of technically advanced products for electrical protection.

It is the combination of experience and innovation with which we have maintained our position as leader in the marketplace - from the world's first high sensitivity RCD, and the use of hydraulic-magnetic technology in residential and industrial applications, to the more recently launched compact and technologically QA17 earth leakage.

In addition to our comprehensive product offering, CBI offers a range of wiring accessories, perfect for complementing the interior design of any home or office. The three ranges available are as follows:

- Plastic (available in White and Silver Shimmer)
- Metal (White)
- Brushed Stainless Steel

The ranges are aesthetically pleasing and have flexible designs for ease of installation. One of the novel features of the Plastic and Metal ranges is a fluorescent green insert that serves as a useful indicator light in a dark room. This characteristic is indicative of the contemporary design of the ranges, which successfully marries functionality with aesthetics.

In addition, to ensure easy integration into existing offices and homes, the range is compatible with commonly used base plates and housings.

Our commitment to safety and quality is evident in the fact that our ranges hold SABS approvals, approved to:

- SANS 164-0
- SANS 164-1
- SANS 164-2

- SANS / IEC 60669-1
- SANS / IEC 60884-1
- SANS / IEC 60947-3
- SANS / IEC 60950
- VC 8003
- VC8008

Features

- Unique fluorescent insert
- Easy to install
- Variety of inserts available
- Ease of operation
- Convenient removal and replacement of surround

D500LED-P Dimmer Trailing Edge

Features

- Improved functionality
- Now compatible with incandescent and halogen lamps
- The CBI D500LED-P Dimmer is also compatible with the following dimmable LED lights:
 - Aurora
 - EcoLED
 - NVC
 - Osram
 - Philips
 - Radiant

For specific lamp specifications and more compatible brands, please contact CBI

- Press switch once for ON or OFF operations
- Press and hold switch to dim to required level
- Silent operation
- Short circuit, thermal & overload protection
- Two-way & intermediate switching is possible without using an additional strapper wire

Pre-settings

- Press switch 2x to activate 50% Energy Saving Setting (E.S.S)
- · Press switch 5x (Security Setting) this will result in an automatic random change in the lights intensity
- · To reset for normal use, press switch once

Power Interruption

When power is restored after a Power Interruption, the lights will:

Remain OFF if they were off

or

Switch ON automatically at 50% E.S.S. if they were on prior to interruption

Technical Specifications

Operation:

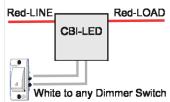

- Press dimmer (bell-press) switch once to turn on or off
- Press and hold switch to dim up or down, release switch at desired light level

Memory:

- Lights will turn on to the same level as when it was turned off if power is not interrupted
- After a power failure: if lights were off, it will remain off
- After a power failure: if the lights were on, it will revert to 50% intensity to conserve energy

Installation:

- By a qualified electrician in compliance with local code of practice
- Wire according to wiring diagram (NEVER connect white control wires to live)
- Only one dimmer per wall box
- Internal use only
- · Two way switching: connect the two white wires to other switch (NO live strapper)

D500LED-P Dimmer Trailing Edge

Load compatibility and maximum ratings:

	Dimming Method	Wire Wound & Inductive Loads		230 Vac & 12 V LED **	Fluorescent & CFL	230 Vac Incandescent & Halogen
D500LED-P	Trailing	NOT Compatible	500 V A, 2.1 A max	500 V A, 2.1 A max	NOT Compatible	500 V A

^{*} Min. load = 3 - 10 W (depending on type of load). Max load = (Dimmer VA rating) x (Load power factor)

CBI LED dimmers are compatible with incandescent and halogen lamps, as well as LED lamps from major LED suppliers: Osram, Philips, Samsung, Verbatim, Aurora, GE. Check with LED lamp suppliers for compatibility if uncertain.

One year carry-in warranty. Standard terms and conditions apply. Warranty void if seal is broken.

Patent: 2007/4502, SANS 60669-2-1, EN 61046, EN 61047, ISO 9001:2008 (KIWA)

Designed and manufactured in South Africa
